Lynn,

I am OK to release the \$13,200 in reclamation bonding to Burningham. Please retain \$5,000 until we can confirm that the re-seeding has been successful.

Andy. Gary Burningham has contacted the Division for a partial release of reclamation surety for this site. Reclamation was completed in early November of 2013. The Division inspected the site and found reclamation to be adequate.

Currently the Division holds \$18,200 for the surety to reclaim the site. If the partial release is approved, the Division will retain \$5,000 to assure vegetation is established.

I am asking for concurrence from SITLA for the release of \$13,200 for this site. Please respond to myself or Paul Baker (paulbaker@utah.gov) with your concurrence or any comments you may have.
